

Greater volumes gives capacity challenges.

The Swedish and European business cycle is on the rise.

On the transport side, growth and rising volumes are now giving capacity challenges.

Unfortunately, both International and Domestic services might be affected

As the summer and holiday period (mainly July and August) is around the corner, we anticipate an escalation.

For some destinations there might be delays, naturally we will do our utmost to prevent delays and organize normal deliveries

Whenever possible, a foresight and an ahead planning is to recommend.
